AERO 2025: BHS Aviation Group presents itself at the leading international trade fair for general aviation

Bamberg/Zurich (24 March 2025). Exclusive passenger and business travel, customized aircraft management and excellent service: this year, the BHS Aviation Group is presenting itself for the first time in the newly designed business aviation area at AERO Friedrichshafen - the central meeting place for European business aviation. From 9 to 12 April, trade visitors and interested parties will be able to find out all about the premium aviation company's range of services in Hall A2, Stand 300.

A special highlight: the ultra-modern Cessna Citation Latitude Jet, which BHS Aviation is exhibiting together with Textron Aviation. The business jet is operated under its own Air Operator Certificate (AOC) in Switzerland. With its spacious cabin, luxurious interior, the latest avionics and an advanced entertainment and connectivity system, the Citation Latitude offers maximum comfort – for up to six passengers. The jet can be viewed in the static display, SD-08.

The BHS Aviation Group also has something special to offer technology lovers and aviation enthusiasts: The legendary Bo 105 multi-purpose helicopter will be on display in the helicopter hangar, Hall B5, Stand 120. The historic model from 1977 was extensively overhauled in 2021 and will be shown to the public for the first time at AERO – an eye-catcher for connoisseurs and nostalgics alike. The Bo 105 is not used for commercial flight operations.

The full-service offering of the BHS Aviation Group is at the center of the trade fair presentation. In addition to exclusive jet and helicopter charters, this also includes professional support and management of private aircraft – so-called aircraft management. Interested visitors are cordially invited to visit the company's experts in Hall A2, Stand 300 for a personal consultation. Individual appointments can be arranged in advance. The contact details can be found on the company's website.

About BHS Aviation Group

The companies of the BHS Aviation Group have a combined experience of about 30 years in exclusive passenger and business flights. Two helicopters and a jet with up to eight seats, comfortable equipment and state-of-the-art avionics are operated from Bamberg, Germany and Zurich, Switzerland. The service portfolio also includes professional aircraft management. This includes flight planning and organization, the provision of experienced professional pilots and crew members as well as maintenance, insurance and optional charter of private jets and helicopters.
